

GARDiS Panel Mount Reader

The GARDiS Panel Mount Reader is compatible with industry standard 40x40mm panel cut-outs and can be mounted using the GARDiS Recess Box and Faceplate (5002-0493) which is available separately. The Reader contains an integral LED alongside a built-in sounder which gives an unambiguous feedback when a credential is presented.

The Reader has selectable output formats to allow connection to most Access Control Systems.
